CRITICAL THEORY™

- The Triliptic™ asymmetric core generates a consistent axis migration and dynamic motion throughout the lane
- The pearl Insight™ coverstock opens up the break point and creates more entry angle than any other ball in the Roto Grip product line
- The 4000-grit Abralon® finish minimizes oil sensitivity while pushing the limits of backend reaction to a critical point

LBS.	RG	RG DIFF.	INTER. DIFF.
16 lb.	2.49	.051	.012
15 lb.	2.49	.058	.013
