

CROWN
LINE

It's more Critical now than ever to have the right tools to be competitive in this era of bowling, and Roto Grip delivers once again with the Critical Theory™.

This 3rd generation Crown™ line ball features the Trilaptic™ asymmetric core, which generates a consistent axis migration and dynamic motion throughout lane. The pearl Insight™ coverstock opens up the break point and creates the most entry angle of any other ball in the Roto Grip product line. The finishing touch is the 4000-grit Abralon® finish, minimizing oil sensitivity while pushing the limits of backend reaction to a critical point.

Take matters into your own hands!
