

Dear, Wes Malott

Hi, my name is Spencer DeFelice and I am 16 years old. My average is 173 and it could use a lot of improvement, I live in Romulus, Michigan which is right down the street from the Motor City Open which is in Taylor, Michigan. I realize that you might be tired of Michigan when you receive this letter, because I'm asking you to come back here after being here for a whole month. I am writing you this letter because of your contest that you are putting on. I'm one of your biggest fans and it would be greatly appreciated if you could come to my city and my bowling league. Unfortunately I am not on a Saturday youth league but I am on the biggest youth traveling leagues (wwytc) in the state of Michigan which is on Sunday if that is ok. At the different bowling alleys that we travel to I am always asking to turn on the TV so I can watch you and my other role models. I love watching you bowl and it would be a great honor to me if you could come to Romulus, Michigan and meet me in person. It would be the time of my life and I would never ever forget those three days if you came to Michigan.

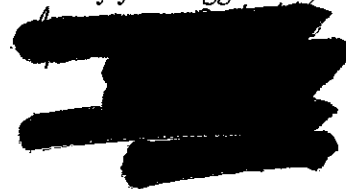

The thing is that I wouldn't be the only one that would love to meet you, my friends and family would also love for you to come here so that we could all meet you. If I could have gone I would have went to the world series of bowling to meet you but the tickets were so expensive and I couldn't afford to go. My travel league that I am in would also feel that it is a great honor to have you there to help out some of the bowlers on the league. If you gave me some pointers I would take them to heart as well as the lanes to make me a better bowler. You are an amazing bowler and I love watching you throw your ball down that lane and making the pins explode like they just got hit by a Mac truck. You are my idol and you are the reason why I want to become a pro bowler one day.

Another thing is that I am in love with roto-grip products. About three months ago I got my first roto-grip ball and it was a original cell, and I loved that ball. I ended up going to states in Grand Rapids and throwing my high game which is a 268 with it. I know it's not that great

because you can throw that every day, but for me it was an awesome game. We ended up getting first place in states for the all male team event and I came in fifth place in the mixed event. I currently have a Cell Pearl and it is even better and still hit the pins with a massive amount of force. All in all I love roto- grip products and I have the up most respect for you. My drawing skills aren't that great but I did try really hard to make a good drawing of you. Thanks for taking your time to read my letter and it doesn't really matter if I win or not because that poster with your autograph on it is just good enough, but it would mean so much more if you came to meet me here in Michigan.

P.S you were awesome in your movie appearance in Strike.

Sincerely your biggest fan,
