

ETERNAL CELL™

CORE: NUCLEUS™

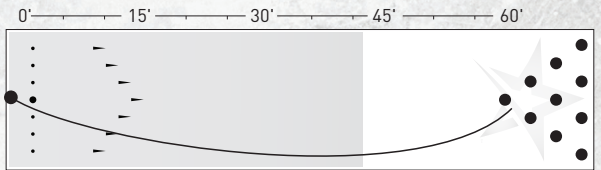

Look out for my asymmetrical Nucleus™ Core. Sure I'm all about balance and control, but only until I make that sudden pop through the pins.

COVER: 75M™ SOLID REACTIVE

My 75M™ Solid Reactive Cover has been tamed just enough to make me more nimble than my relatives, but I'm just as dangerous.

CONDITION: MEDIUM OIL

My time tested core and cool shiny exterior make me a friction dominator on medium conditions, plus I can be sanded for slick situations.

Finish: 1500-grit Polished

← The ball path represents Roto Grip's bowling ball tester. Ask your pro shop professional how the Eternal Cell will work for you.
