HOOK POTENTIAL

HY-WIRE™

Available Weights: 12-16 lb

\$ 888.88

ROTOGRIP.COM

CORE: MIDDLE ROLL 70™

Given the success of my relative the Haywire™, I've also been granted the Middle Roll 70™ core. This tried and true core provides the right amount of motion with the ideal balance to keep it all in your control.

More Info: rotogrip.com

COVER: 62M™ HYBRID REACTIVE

My unique 62M™ Hybrid Reactive coverstock is one part solid and two parts pearl, which means that I can scoot through the front just like a pearlized cover and have just what is needed from a solid at the breakpoint.

Factory Finish: 1500-grit Polished

CONDITION: MEDIUM

I'm gifted with a 1500-grit factory polished finish, but I can still be easily sanded if an earlier motion is desired. I can also be shined up more for length, and by the way, I'm great on those medium oil conditions.
