CORE: NEUTRON NXT™ CORE
The next generation of the Neutron core gives you higher RG while still providing plenty of motion at the breakpoint.

COVER: VTC-H19™ HYBRID COVERSTOCK
This new and improved coverstock takes our latest hybrid cover and gives it even more responsiveness down lane.
Factory Finish: 1500-grit Polished

CONDITION:
This is the perfect transition ball and will really shine on higher friction lane surfaces and conditions.
Available Weights: 10-16 lb
