

HP1™
HOOK POTENTIAL

SHOUT™

\$ 888.88

Available Weights: 10-16 lb

WT	RADIUS OF GYRATION	DIFF
16 LB	2.57	0.022
15 LB	2.57	0.022
14 LB	2.57	0.022
13 LB	2.63	0.009
12 LB	2.65	0.011
11 LB	2.73	0.012
10 LB	2.77	0.015

GUTS.

DEEP DOWN, THE SAME.

At our core, me and my sister, Scream, are identical. Our NEW Late Roll 46™ core was designed to provide maximum length with stable control down lane, producing a minimal amount of flare and strong hitting power through the pocket.

More Info: rotogrip.com
More Flip Cards™: bowlingdisplays.com

GRIT.

ON THE OUTSIDE, OH SO DIFFERENT.

Scream thinks that pearl is where it's at, but I'm more into the solid look. My NEW 45L™ solid reactive coverstock allows me to easily clear the front part of the lane just like Scream, except I'll react a little sooner.

Factory Finish: 1500-grit Polished
Flare Potential: 2-3 inches
Coverstock: 45L Solid Reactive
Hardness: 74-76 on D-Scale

GRIME.

LIGHT OIL MEANS GOOD TIMES.

When you're facing lighter oil conditions where you need a ball that delivers great length and control at the breakpoint, me and Scream are ready to crank up the decibels. Are you ready to get loud?

Lane Condition: Light Oil
